

“Green” Resolution for 2015!

Are you looking for a New Year’s resolution that can help you save money? Then make 2015 a year to expand your recycling or to start recycling if you haven’t done so already! Recycling is FREE and can be a great environmental activity for your children. They learn about it in school so why not give them responsibility and let them be mini Recycling Managers at home? Recycling is much easier than it used to be and you can even leave the labels on! Make recycling an entire family activity.
